You can go for a walk, go for a run, add some activity, or choose any workout from the previous day if you want to include your ***rest days.**

A Few Things to Remember While Tracking

Aim for 2–3l. Some days may vary, just stay mindful. Hydration boosts energy, focus, and recovery.

Target 50–60g/day (adjust for your goal). Track per meal to stay aware and improve results.

7–8 hours should be non negotiable. Fluctuations happen, but consistency is what drives progress.

Goal = 100%, but 80–85% is still a win. Missed a day? No guilt. Just resume.

Big or small, showing up counts. Celebrate what felt good today.
